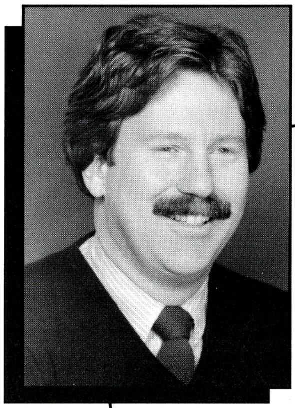
THE NEW WAVE OF CONNECTIVITY

TRAVELING SOFTWARE®



Traveling Software

Dear Friend,

Welcome to the latest edition of the Traveling Software Catalog. As we enter our sixth year of serving the laptop computer market, we are debuting several exciting new connectivity products that break new ground for fast, low cost and "painless" Apple Macintosh and IBM PC Connections.

Before I give you a preview of the highlights, let me describe our new "look" and "feel".

First, we have organized the contents into four basic categories: (1) IBM compatible products, (2) the New Wave of Connectivity – some incredible connectivity solutions for all desk top **and** laptop computer users, (3) Laptop/Desktop Accessories, (4) Radio Shack/NEC notebook laptop products.

There are so many hot new products in this issue that it is impossible to mention them all, but here are a few: Two new versions of our award winning LapLink product; LapLink Plus and a Macintosh version that will connect all Mac's with **any** IBM compatible laptop or desktop.

An incredible "60 second" two computer network that works on ordinary telephone wire, at speeds greater than 115,000 baud connecting any two IBM compatible PC's. We have named this product "DeskLink", and it sells for an astounding price of less than $85.00 per computer!

As always, you can be assured that, in addition to our own products, all non Traveling Software products that we carry in this catalog are being used by one or more of us here at Traveling Software. As I have said before, "If we don't use it, we don't sell it!" If it's not good enough for us, we certainly can't expect it to be good enough for our customers.

Once again, all products carry the unconditional Traveling Software money-back guarantee. If our customers aren't happy, then we're not happy. After all, your continual support is the reason we get to keep developing and finding exciting new products.

My sincere thanks to all of our customers. Please continue to let us know how we can provide better products and service.

Best Regards,

Mark Eppley

Hot Line Two makes the most of your telephone and PC. A power dialer. Instant access to anyone, anywhere, anytime.

Store up to 10,000 phone numbers per 3½″ disk. Build a private directory, a corporate directory or a sales prospect list and switch between them with ease. Hot Line Two is dBASE III compatible. Add, delete or change a listing almost instantly. Use your computer to do the dialing with all popular modems.

Added Bonus!

With the purchase of Hot Line Two, you receive a diskette containing 10,000 of America's most useful listings: Airline, Hotels, Major Corporations and more. All of these listings are from the National Directory of Addresses and Telephone Numbers published by General Information, the maker of Hot Line Two.

Hot Line Two can be "popped up" while you're in another application. Works with most of the popular software for the IBM PC on the market today, including other memory resident programs. (Requires 72 to 85 K of memory.) 3½″ disk format.

Freeway

NEW!

Painless Communications

Uses fast pop-up menus and contains a phone book feature that can automatically dial and connect your laptop computer to all popular E-mail services such as MCI, GEnie, Compuserve and BIX. Each phonebook entry can be individually customized for all communications parameters.

Create up to nine separate phonebooks as well as automatically record sign-on procedures for unattended E-mail pickup and deliveries directly from your laptop computer. Freeway supports all popular communications protocols such as XMODEM, Kermit and Compuserve-B. Freeway also supports VT100 and VT52 terminal emulation.

Comes on a 3½ inch disk and is an incredible bargain at only $59.95. A fraction of what you would pay for less capable and more difficult to use products.

Freeway
Order# PC1-FR1 **$59.95**

The New Wave of Connectivity

DESKLINK

Connect Any Two Computers In Just Minutes! Using ordinary serial ports and RJ11 phone wire.

Instant Network

Run a simple installation program and connect the two computers with the Desklink cable. No additional parts or procedures. DeskLink, just like a two computer network but without the headaches!

Flexibility

Change connected disks or printers on either system with a single keystroke. Not necessary to reconfigure or reboot your computer. Print a draft document on your local printer, then print a final document on a remote computer's laser printer with a single keystroke.

Instant Two Way Communications

Using the DeskLink pop-up "talk box", carry on a conversation or send a message to another DeskLink computer. Compatible with most "Big" networks. Use DeskLink to hook into an existing network without additional add-in boards or effort.

Less Than $85 Per Computer!

DeskLink breaks new ground for a plug'n play two computer network and does so at the incredible price of only $169.95 – including cables!

Satisfaction Guaranteed!

You must be completely satisfied or your money back. It's as simple as that!

Special Bonus Includes the popular LapLink program.

DeskLink Features

- Connects any two computers together by ordinary RJ11 phone wire up to 75-100 feet. (25 feet included)
- Complete sharing of disk drives and printers between computers.
- Installs in minutes without costly add-in boards or complicated configurations.
- Incredible transfer speeds of over 115,000 baud using a single RS232 serial port.
- Fully compatible with the new IBM PS/2 computers. Great for connecting 3½″ and 5¼″ disk computers.
- Includes a pop-up "talk box" for two way communications between computers at any time, regardless of what software is being used.
- Instant single keystroke switching between local and remote printers. Great for sharing a laser printer.

DeskLink Order# PC2-DL1 **$169.95**

(includes cable and 25 ft. of RJ11 phone wire)

LAPLINK

The fast easy way to transfer information

PC MAGAZINE THE BEST OF '87 FOURTH ANNUAL AWARDS

LAPLINK can be up and running within seconds of opening the box. Requires absolutely no installation; no messy changes to a CONFIG. SYS file or the restarting of your computer. Includes software and a quality universal cable that will connect any two IBM compatible desktop or laptop computers. LAPLINK also transfers information faster than any other product of its kind. Up to 115,200 baud (bits per second)

Error Free

No chance of an error with LAPLINK. It automatically checks all transferring information for validity.

Versatile

You can "tag" files on either computer which can then be sent to the other computer. For example, tell LAPLINK to copy only those files which have been created within a particular time frame. Tell it to copy only those files that are new or updated.

No Need For Expensive Disk Drives

You'll find LAPLINK's incredible transfer speed much faster than a normal disk copy, transferring megabytes in just seconds. Weighing only ten ounces, LAPLINK can be easily carried with you for instant connectivity at any location.

LAPLINK Features

- Transfer speeds over 115,200 baud
- Turbo option increases speed up to 50%
- Unique split window file selection
- Includes file tagging, XTREE like disk management and directory sorting
- Can be used for hard disk backup to 3½″ floppies
- Supports all IBM PS/2 computers
- Includes both 3½″ and 5¼″ disks with unique universal "4 headed" cable

LAPLINK Order# PC1-LL1 **$129.95**

The New Wave of Connectivity

Laplink Plus

Adds the Laplink device driver to Laplink – Provides direct disk access and printer sharing between two computers. Access a printer or disk drive directly from your laptop or remote desktop. Run or install 5¼″ copy protected software using a 3½″ disk computer.

Compatible with most disk management and backup software including Fastback Plus.

LapLink Plus
Order# PC1-LP1 **$139.95** (includes universal cable)

NEW!

LapDOS II

Connects your IBM compatible desk top computer directly to a Tandy M100/102/200 or NEC 8201/8300.

A direct connection between your IBM PC and laptop or your Tandy or Purple Computing portable disk drive. LapDOS II lets your IBM PC or compatible "talk" directly to your laptop by connecting a simple null modem cable. Our three connector cable will work with all IBM or compatibles including XT, AT and the new PS/2 Series. Plug in the cable and with your LapDOS II software you will be transferring files between your laptop and your IBM PC at speeds up to 19,200 baud instantly.

Features

Rename, view and delete functions. Supports subdirectories on IBM compatible desktop computers. Also supports both Tandy 100K and 200K disk formats. Available no matter what desktop program you are using (operable in background). Xchange ThinkTank, Side Kick and Word Star files with IDEA! files and other programs. Complete with cable adapter for the Tandy disk drive and a special 3 headed universal cable to connect to all IBM compatible desktop computers.

LapDOS II
Order PC1-LD1 **$129.95**

LapDOS Upgrade (including cable)
Order# PC1-LD2 **$49.95**

MacDOS II

NEW!

Connect your Macintosh directly to a Tandy M100/102/200 or NEC 8201/8300.

Connect your Macintosh directly to your laptop or your Tandy or Purple Computing portable disk drive. MacDOS II lets your Macintosh "talk" directly to your laptop by connecting a simple null modem cable. Also included is our special cable with connectors for all Macintosh computers including the Mac 512, Plus, SE and Mac II. Just plug in the cable; with your MacDOS II software you'll be transferring files between your laptop and your Mac at speeds up to 19,200 baud instantly.

Manage Your Data

With MacDOS II your Macintosh can read and edit files created with your laptop. Open, edit and print files on the portable drive as easily as regular Macintosh files. Copy all of your files from the portable drive to the Macintosh for easy backups.

Easy To Use

MacDOS II gives you access to the data you want when you want it.

Features

Full editing capabilities for files less than 32K in size. Up to 4 file windows open at a time. Catalog window shows files on the portable drive. Copy all functions for quick file transfers. Supports both Tandy 100K and new 200K disk formats.

NOTE: Macintosh II owners will need the Mini-8 to DB9 connector cable to use MacDOS II.

MacDOS II
Order# AP1-MD1 **$129.95**

MacDOS II upgrade for registered MacDOS owners
Order# AP1-MD2 **$49.95 including cable**

BOOSTER LINK

Booster Link makes your IBM or Mac desktop computer act like a portable disk drive allowing TS-DOS to load, save, rename and kill files directly.

Booster Link allows you to transfer files between your desktop computer and your Tandy 100/102/200 or NEC PC-8201/8300 using a serial cable and TS-DOS or any other disk operating program for the Tandy or Purple Computing portable disk drive.

If you have the Booster Pak or the ROM version of TS-DOS you can also create and move from subdirectory to subdirectory with the push of a button.

Booster Link comes with a three connector cable and is available for the IBM PC/XT/AT or compatibles or all models of the Apple Macintosh.

Booster Link—includes cable

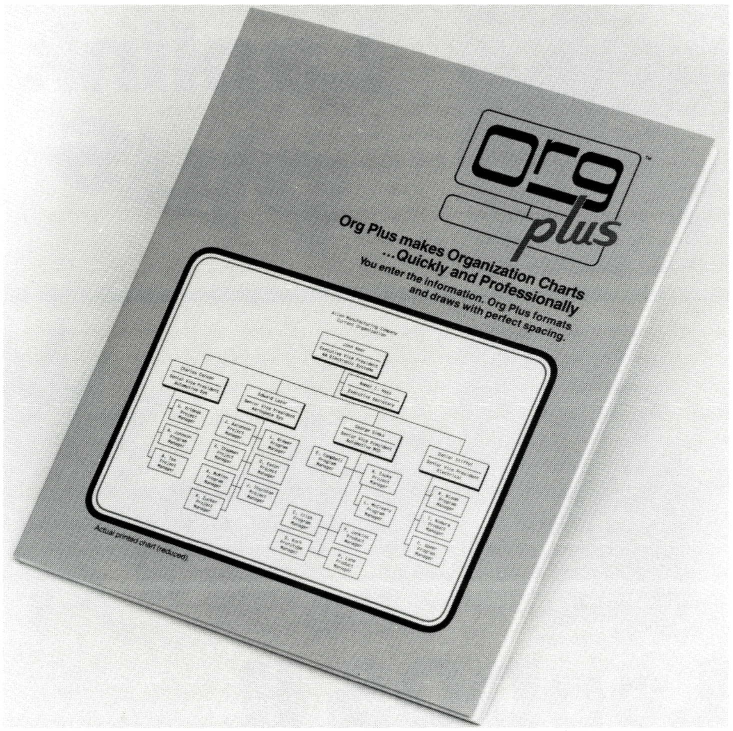
Mac version
Order# AP1-BL1 **$99.95** includes Mac cable
(Booster Pak owners save $30.00 **$69.95**)

ORG PLUS!

Organize and Compare Data – Make and Update Charts Easily!



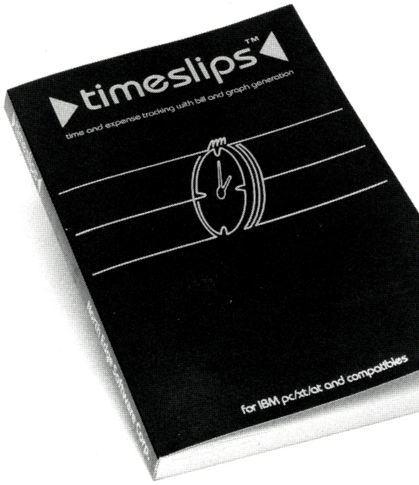
Org plus
Org Plus makes Organization Charts
...Quickly and Professionally
You enter the information, Org Plus formats and draws with perfect spacing.
Actual printed chart (reduced)

Create professional looking organizational charts in minutes! Just input the raw material and choose the style you prefer from the 7 chart and 8 box styles, ORG Plus does the rest. Your chart can be printed out in a matter of minutes, yet the quality is so good you'll be proud to use it in any kind of presentation or report. Revision and corrections take only a few minutes. Also prepares reports and telephone directories.

ORG Plus is also a great management tool. Enter raw, numerical data and ORG Plus will organize it so you can compare and analyze sales vs quotas, expenses by individual or group, salary averages, etc.; analysis that would be difficult or impossible for a spread sheet.

ORG Plus racks up the facts for easy comparison and analysis.

ORG Plus Comes on 3½″ disk
Order# PC1-OR1 **$79.95**



timeslips™
time and expense tracking with bill and graph generation
for IBM pc/xt/at and compatibles

TIMESLIPS

TRACKS TIME, EXPENSES GENERATES reports, invoices.

Track your time and expenses with TIMESLIPS' exclusive memory resident pop-up stopwatch screens. Enter time and expense from your written records.

Generate business and financial reports with bar graphs and pie charts. No special hardware needed. This information and presentation will help you compare the value of your resources.

Order# PC1-TI1 **$129.95**

ACT!

Keep your work at your fingertips.

Too often, the office items that are designed to make you more efficient (memos, letters, notes, files) are the very things that bog you down! Especially if you constantly call, write and track your contacts. With ACT! you can finally have a paperless office.

ACT! is so well designed that it helps you manage your time as if you had a very efficient assistant. Single key strokes allow you to update a contact list, phone a contact, write a letter, schedule a meeting, update or print out a report, track an expense. Includes a calculator and a calendar.

Easy to use because it works the way you want it to!

No other program offers you a database, word processing, calendar and reporting functions that are as fully integrated as ACT!

ACT! works on IBM PC, XT, AT, portable and compatibles. Hard disk is recommended. Minimum of 460K of RAM is required. Comes with both 3¼″ and 5½″ disks.

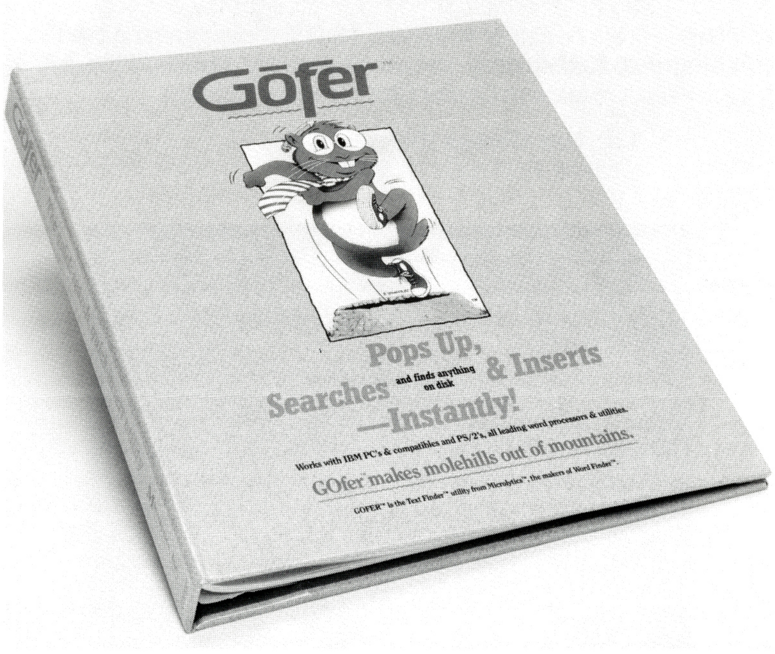
Gōfer™

The Text Finder

Find the things you can't find in less time than it takes to check your disk directory.



Gōfer™
Pops Up,
Searches and finds anything on disk & Inserts
—Instantly!
Works with IBM PC's & compatibles and PS/2's, all leading word processors & utilities.
GOfer makes molehills out of mountains.
GOFER™ is the Text Finder™ utility from Microlytics™, the makers of Word Finder™.

You'll never know how you lived without it!

Finds memos, phrases, facts, dates, numbers immediately! Searches hard or floppy disks and will relocate the found material wherever you want it; displayed, printed or pasted into the document you are working on. Works with LOTUS 123 files.

No special housekeeping, indexing or other preparation needed.

Almost any clue is enough for GOfer. GOfer can read files from any of the leading word processors. GOfer is RAM resident and can be called up whenever you choose. Can also be used as a stand alone. Works with any IBM PC, XT, AT or compatible (requires 79K of RAM). Comes on 3½" disk.

"Another miracle from Microlytics! GOfer finds text fast. It's easy to use and trouble-free."

. . .Jerry Pournelle

WORD FINDER

220,000 synonyms for 15,000 words.

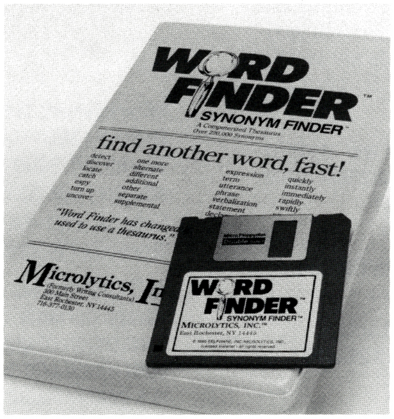
Compiled by Dr. Roger C. Schlobin, Professor of English Literature at Purdue University.

Contemporary vocabulary—designed for today's writers and business people.

Confirms both meaning and spelling

Fast—The entire cycle of search and replacement takes seconds, allowing you to retain your train of thought.

Precise—Allows you to compare similar synonyms and select the exact one that expresses your thought completely and exactly.



Easy—Place your cursor on the word you want a substitute for and up pops a window with a list of similar words. Place the cursor on the word you want and press the return key. The new word replaces the old one instantly, right in your text, retaining exact capitalization and punctuation. Never lift your hands from the keyboard or your eyes from the screen.

Word Finder works with virtually all IBM PC word processors.

Our version includes **both** 5¼″ and 3½″ disks. A great addition to any writer's working tools.

Word Finder (IBM PC version)
Order# PC1-WF1 **$89.95**

Laptop/Desktop Accessories

The Ultimate Laptop Attache

Fits virtually all laptops – Lots of pockets and slots!

After evaluating more than 50 existing bags and many new designs, we've settled on this one as the best available anywhere. A formed, padded case of high quality Cordura, a tough but attractive material. The Ultimate will fit even the Toshiba 3100, Zenith 183 and the IBM Convertible (with one "slice").

Inside are two large pockets for working papers, three smaller patch pockets for disks, modems and other accessories, as well as a moveable A/C adapter divider. All inside pockets have velcro fasteners. There is also a special velcro strap to hold your laptop snugly in place. Outside there is a large zippered pocket suitable for a Diconix printer, power supplies or additional working papers.

Available in a handsome grey with black strapping at a fraction of what you would pay for a bag with half the features of the Ultimate.

The Ultimate Laptop Attache
Order# HW1-CB2 **$59.95**

Soft Sided Laptop Attache

Perfect for small to medium sized laptops

Another winner in elegant yet rugged grey Cordura with black trim on the top and bottom. Three zippered pockets outside and a fold over flap with adjustable quick snap straps. One of these outside pockets is perfect for an A/C power supply. Work papers will fit another of the outside pockets or a velcro sealed inside pocket.

The main pocket will comfortably hold most of the small to medium size laptops such as the Toshiba 1000, 1200, NEC Multispeed, Zenith 181 and the Datavue Spark.

SPECIAL NOTE: Not for the Toshiba 3100, Zenith 183, NEC Multispeed HD, Datavue Snap, Tandy 1400 or IBM Convertible.

An incredible value for small to medium sized laptop owners! Call for other colors.

WorldPort 1200 & 2400

Simple, versatile, efficient, portable 1200 and 2400 baud Hayes compatible modems.

1200
WORLDPORT
TOUCHBASE SYSTEMS
ENERGIZER

Portability—Powered by its own 9 volt battery or optional AC adapter, it draws no power from your computer. The WorldPort is the smallest modem of its type available today.

Compatibility—The WorldPort works with virtually any computer with an RS-232C serial port. Transfer it from computer to computer as needed. Fully compatible with the industry standard Hayes AT Command Set including the latest extended commands. This provides access to a vast range of communications software and existing applications.

Versatility—The WorldPort meets dual communication standards allowing use throughout the world. Both U.S. accepted BELL 103/212A standards for 300 and 1200 bps and the international CCITT V.21 (300 bps) and V.22 (1200 bps) standards are supported. Both standards are switch and software selectable. The WorldPort comes with the U.S. standard modular telephone jack and an acoustic cup adapter.

Portable Extras—The WorldPort 1200 comes complete and ready to use with a comprehensive user manual, modular phone cable, adapter cable for use with the optional acoustic cups and the nine volt battery!

BlackJack—A telephone jack for all occasions

for use with any laptop or desktop computer

If you have been prevented from telecommunicating for lack of a modular telephone jack, this is for you: a 0-9600 baud portable modular jack that connects any computer modem to any standard telephone handset. It provides a direct (not acoustical) connection for improved telecommunications; preserves line sensitivity; and is insensitive to environmental noise. Provides an option for acoustic cups.
Weighs less than ¼ pound.

Blackjack Order # HW1-BJ1 List $49.95 Special **$44.95**

SPARK
DATAVUE

Datavue Portable FAX

World's First Portable Laptop FAX

For instantaneous display or hard copy transmission between your laptop and any FAX machine anywhere! Just plug it into your laptop or desktop serial port and insert an ordinary RJ11 phone cable and you're ready to transmit or receive from your word processor or Lotus spreadsheet. The Datavue FAX supports full Group III FAX standards and transmits at speeds up to 4800 bps. You can receive FAX's and display them on your screen, store them on a disk file or output to an ordinary dot matrix printer.

The Datavue FAX supports most word processing software and can merge text with graphic letterhead and signature files to produce professional letterhead FAX's wherever you are! Data can be captured from your computers display or input from a scanner, PC Paintbrush or Dr. Halo graphics programs. Compatible with IBM PC or compatible laptop or desktops. Weighs 1 lb., measures 3½″×1″ and includes carrying case. Cost is a fraction of what desktop FAX machines cost – and it's portable!

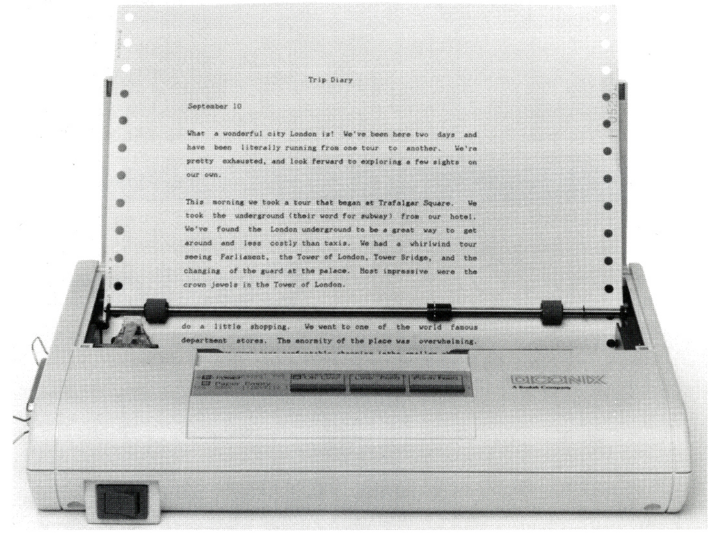
Datavue Portable FAX
Order# HW1-PF1 **$495.00**

DICONIX 150 Portable Printer

This is the best battery-operated plain paper printer made. Uses same ink jet cartridges as the Hewlett-Packard Think Jet printer does. IBM Graphics and Epson compatible. Prints in draft mode at 150 cps and in near letter quality mode at 50 cps. For best quality printing, a coated stock clay paper should be used.

Comes standard with a Centronics parallel interface. Includes Nicad rechargeable batteries and A/C adapter. Weighs 3.75 lbs. with batteries. Measures only 2″×11″×6½″.

Diconix Printer
Order# HW1-DP1 (parallel) Regular $479 **Special $379.00** Save $100!



Trip Diary

September 10

What a wonderful city London is! We've been here two days and have been literally running from one tour to another. We're pretty exhausted, and look forward to exploring a few sights on our own.

This morning we took a tour that began at Trafalgar Square. We took the underground (their word for subway) from our hotel. We've found the London underground to be a great way to get around and less costly than taxis. We had a whirlwind tour seeing Parliament, the Tower of London, Tower Bridge, and the changing of the guard at the palace. Most impressive were the crown jewels in the Tower of London.

do a little shopping. We went to one of the world famous department stores. The enormity of the place was overwhelming.

Printer Accessories and Supplies

For the Diconix

Printhead cartridge Order# HW1-DP3 **$9.95** (prints up to 500 pages of text)

Ink-Jet Paper Order# HW1-DP4 **$28.00** (9½″×11″ continuous form, 1,000 cnt box)

INFORMATION SERVICE

Traveling Software is now managing the "laptop roundtable" on the GEnie network.

The laptop roundtable is a worldwide information exchange for laptop computer owners. Get your questions answered, schedule a trip from start to finish with American Airline's EAASY SABRE personal reservations system on GEnie, learn of new applications and products (over a thousand free public domain programs for laptops). Virtually all popular laptops are supported.

With any catalog purchase, the $18.00 signup fee will be waived! A special GEnie coupon detailing ordering and sign-up procedures will be included with the shipment of your order.

For more information please call GEnie at 1-800-638-9636 (voice)

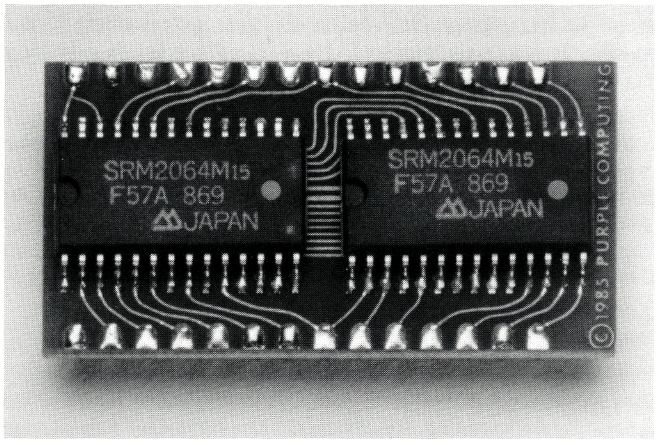
Now you can call the Traveling Software computer directly for product information and FREE public domain programs.

Memory Expansion Chips



• 8K Memory Chip for the Tandy 100, 102 and NEC PC-8201.

Easily installed in the RAM expansion sockets of these computers, expanding memory by 8,192 bytes per chip. Install enough chips to bring your Tandy 100 or Olivetti M10 up to 32K or your NEC PC-8201 up to 64K (32K per bank). In operation, uses little power, for long battery life. Two-year warranty.

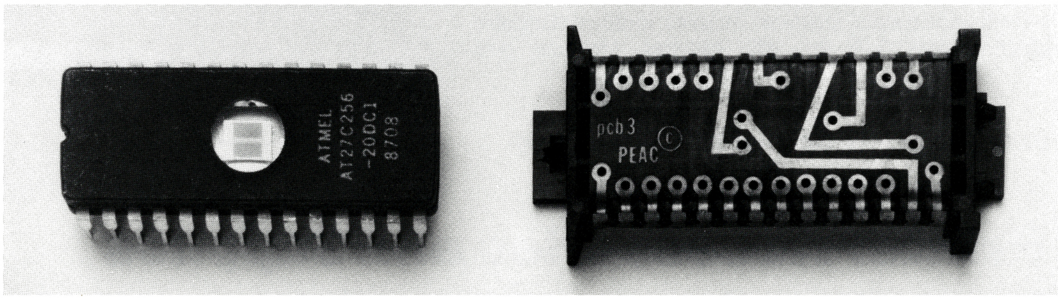
8K RAM Chips-M100	Order # HW1-RC1	**$22.00 ea.**
M102	Order # HW2-RC1	**$14.95 ea.**
NEC	Order # HW1-NE1	**$22.00 ea.**

• 24K Memory Chip for the Tandy 200

Installs in the Tandy 200 in less than two minutes – the only tool necessary being a coin to pop open the hatch. Install up to two of these chips to bring the Tandy 200 to 72K. Low power requirements, for long battery life. Pins made especially for the Tandy 200 expansion compartment. Two-year warranty.

24K RAM Chip M200 Order # HW1-RC4 .... **$65.00**

Custom ROM Services



Now you can have your own programs burned onto an EPROM and they will work like the built-in ROM software in your Tandy 100/102/200 or NEC PC-8201/8300.

It's an ideal way to free up more RAM memory for data storage and also make your program copy protected.

Our patented flexible circuit board allows you to have your EPROMs reburned when you change your program at substantially lower prices, and they won't damage your computers ROM socket when you remove them.

Our overnight service assures that we can meet your schedule, and the service is guaranteed to work or your money back.

Quantity pricing as low as $41 each. No minimum order quantity.

Call for your FREE Custom ROM information kit.

BOOSTER PAK

2 Megabytes of RAM and/or ROM memory for the Tandy 100/102!

Just snap the BOOSTER PAK onto the bottom of your Tandy 100/102, plug in two cables and you're in business. You can customize it to meet your needs now and in the future.

Features:

- 136K of RAM memory (96K available for files)
- 64K of ROM software
- 16 socketed slots for 32K RAM and/or ROM software chips
- 2 Tandy MOLEX ROM sockets
- Provision for a built-in Nicad battery pak
- Provision for a built-in 1200 baud Hayes compatible modem
- Continuous RAM software built-in (no bank switching or copying)
- File folders/subdirectories supported
- TS-DOS disk software built-in
- X-TEL communications software built-in
- TELCOM supports file upload/downloading to Booster Pak
- Long life lithium battery for RAM backup (rated 7 years)
- BASIC programming access to virtual RAM
- ROM environment software (mix and match any ROM software)
- ROM software applications from 32-480K in size
- Fast action Asteroids game (with great graphics) built-in

Special Offer!

For a limited time only, all BOOSTER PAK customers may purchase the IBM or MAC Booster-Link software and cable for only $59.95 – a $40 savings!

Contains the Random House American Dictionary
SARDINE
The first electronic pocket dictionary and spelling checker for laptop computers.
SARDINE
Random House Dictionary
American Dictionary
American Dictionary

Sardine *The first electronic pocket dictionary for laptop computers.*

Contains the 35,000 word Random House Pocket Dictionary.
The first laptop spelling checker.

Faster than a desk top – (Processes over 13,000 dictionary words per minute!) Look up a single word in seconds or check a 25K document in less than three minutes. Corrections are inserted automatically.

Create your own auxiliary dictionary of special terms, words, names, abbreviations up to the extent of available memory.

Special on the ROM plug-in chip – Word process with the acclaimed T-word program, **plus** over 7,000 of the most frequently used business words (as determined by a two-year, one million word study of business correspondence conducted by Wang Laboratories).

Compatible – Use with the Tandy M100/102, M200 and NEC 8200/8300 laptop computers. Requires 16K RAM, Tandy/Purple computing disk drive (optional for ROM version).

Free – Your own personal copy of the Random House American pocket dictionary with every Sardine you buy.

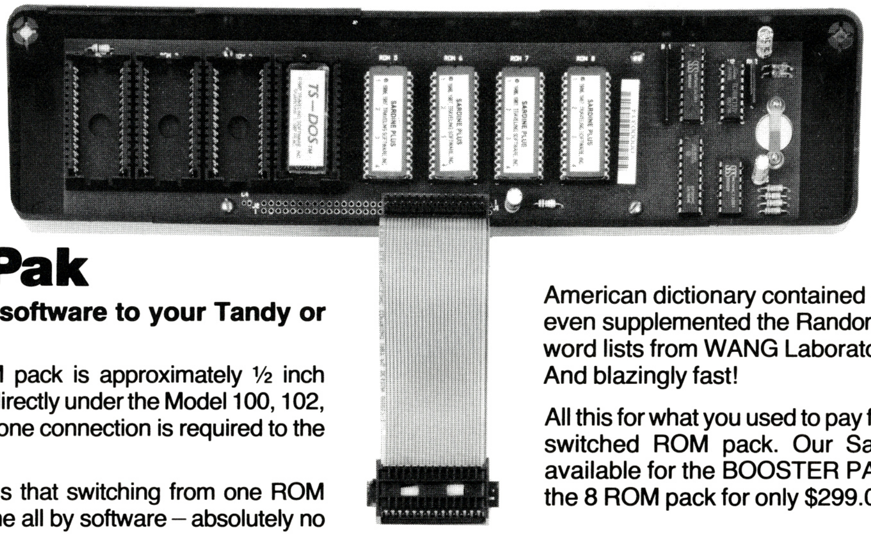
Sardine Plus 4 ROM chip set $199.95	#RS1-SD3	(Booster Pak version)	

See below for 8 ROM Pak version



Add up to **256K** of ROM software

8 ROM Expansion Pak

Add up to 256K of ROM software to your Tandy or NEC Laptop

This slim-design 8-chip ROM pack is approximately ½ inch thick and 2½″ wide. Attaches directly under the Model 100, 102, 200 or NEC 8201/8300. Only one connection is required to the existing ROM socket.

What is even more amazing is that switching from one ROM software chip to another is done all by software – absolutely no mechanical switches!

Not only do you get four empty ROM sockets (7 w/TS-DOS only) to plug in your favorite ROM software, but we have filled the remaining four sockets with a special four chip set of Sardine. This version of Sardine is the same available for the BOOSTER PAK (see page 13) and not only includes the popular T-Word word processor, but the Sardine proof reader and spelling checker along with the ENTIRE Random House American dictionary contained completely on ROM chips! We even supplemented the Random House dictionary with special word lists from WANG Laboratories. Over 35,000 words in all. And blazingly fast!

All this for what you used to pay for a bulky, empty, mechanically switched ROM pack. Our Sardine Plus ROM software is available for the BOOSTER PAK for only $199.95. Buy it with the 8 ROM pack for only $299.00.

8-ROM Expansion Pak	**Tandy 100**	**Tandy 102**	**Tandy 200**	**NEC 8200/8300**

Now Available with TS-DOS in ROM!

Padded Carrying Case designed for 8-ROM Pack Order# HW1-CB3 **$29.95**

Sun Power 100

Who Needs Batteries?

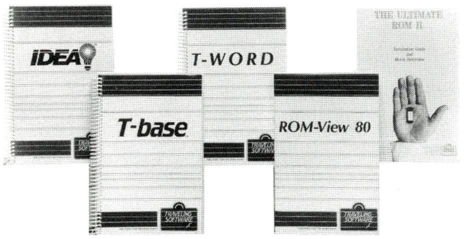
A one of a kind product for those who are into very "remote" computing. Will definitely cut your dependency on batteries! Puts out a full 6 volts in bright sunlight or partially cloudy days. Operate your Tandy or NEC Notebook computer with the Sun Power 100. A great battery charger for Nicad batteries or power cells. Any light condition, including flourescent, is suitable for recharging with the Sun Power 100.

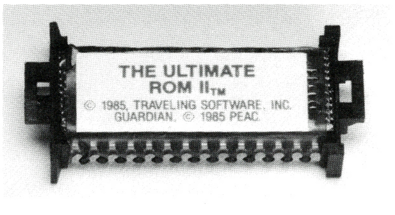
Comes with a hand stitched "leather-like" case that folds to a compact 6×10 inches. Includes a six foot adapter cable.

Sun Power 100 Order# HW1-SP1 **$169.95**

The Ultimate ROM II

Five applications on one chip!





ROM-View 80—Display up to 60 characters per line, 80 with scrolling.

Use in TEXT, TELCOM, BASIC and ULTIMATE ROM II applications.

Note: TS-DOS will be substituted on the Tandy 200 version.

T-Word—Full word processor and print formatter.

Search and replace, overwrite, word count, hanging indentation, headers and footers, conditional paging, right justification, fast text formatting by menu or control codes. Preview documents three ways before printing (including pixel page plot). Merges everything from single words to complete files. Supports virtually all printers having such features as boldface, underline, condensed print.

Idea! The great flexible outline organizer

Anything from simple lists to complex outlines organized, re-organized, sorted, searched. Includes many database and word processing capabilities. **NEW!** Faster operation, preview mode, template-generating feature. With LAPDOS II, files can be exchanged with Think Tank files.

T-base—The true relational database

Borrow information from seven other files. Set up formulas for calculation; spread sheet – like calculational capabilities.

NEW faster operation; floating decimal; calculation of sines, square roots, etc.; conditional and logical calculations, exchange files with desktop programs like dBASE II and III, R:base 5000, and WordStar MailMerge.

Portable Disk Drive Support
Loads TS – DOS From The Portable Disk with One Button

No need to load files into the computer. With disk files, T-Word allows all of the merge operations possible with RAM files.

Tandy Portable Disk Drive - for use with laptop and desktop computers

The Tandy portable disk drive gives you fast access to 200K of information on 3½ inch disks, eliminating the cumbersome and slow process of cassette storage and retrieval. Weighing just 1.9 pounds and measuring only 6 3/8 by 5 1/4 inches, its small enough to fit into your briefcase along with your laptop computer. Runs on four AA batteries or 6-volt AC adapter. Comes complete with TS-DOS (on disk **and** ROM) for easy operation and with a FREE Traveling 3½" disk wallet. Over a $379 value if purchased separately!

Tandy Portable Disk Drive $249.00 M100/102 Order# RS1-PD1 • M200 Order# RS3-PD1 • NEC 8201/8300 Order# NEI-PD1

TS-DOS New 4.0 version works on new 200K or original 100K disk drives

TS-DOS is a complete operating system for the Tandy and Purple Computing 3½" disk drives.

With TS-DOS you can list files both on disk and in RAM, save to disk, load into RAM, kill, and rename files simply by selecting a file with the bar cursor and pressing a function key.

TS-DOS allows you to save and load files directly in TEXT, and write BASIC programs that access files on the disk.

The Tagging feature lets you load, save, or kill several files at once – at a substantial savings in time. You can tag all files at once or individually, you can even remove tags.

With the ROM version of TS-DOS and new Booster Link software you can preform all these operations directly on the disk drives of your desktop computer.

TS-DOS on DISK occupies 5.5K of RAM and TS-DOS on ROM occupies no RAM space at all.

	Tandy 100/102	**Tandy 200**	**NEC 8201/8300**

ROM 2 / Cleaseau

Three Programs on One ROM Chip for the Tandy 100/102/200, NEC PC 8201/8300.

A software development tool on a plug-in chip. The ROM 2/Cleaseau is actually three programs in one:

A TEXT Editor: Append to the paste buffer, search and replace, insert or overwrite, uppercase or lowercase a selection of text, count the number of bytes, words, lines, repeat any command a specified number of times, search forwards or backwards, search for control characters, verify a file with a saved file, and more!

A BASIC Inspector: Allows you to follow your program, step by step, and determine which statement in a line caused an error. Cleaseau's editing commands help keep your program well organized.

A Macro Assembler and Symbolic 8085 Debugger: Assembles 300 lines per minute and uses the complete 8085 instruction set. Also supports user defined macros, conditional assembly and complete expression evaluation. With the ROM 2 debugger you can simulate 1000 instruction per second, inspect memory locations by name, disassemble memory into 8085 opcodes, redirect output to the printer, lcd or serial port, trace program execution, set break points and single step into, out of and over sub routines.

ROM 2/Cleaseau

Design makes all 6 positions available all of the time!

In keeping with the spirit of the Traveling Software catalog, we are including this one-of-a-kind power strip for all of you who use your AC power adapters while in the office or at home. How many times have you filled an ordinary six outlet power strip with only two or more outlet positions? Our unique six outlet power strip uses outlets mounted at a 90 degree angle allows for AC adapters to hang over the side instead of taking up another outlet position. Industrial quality, includes a built-in circut breaker and pilot light.

AC ADAPTER STRIP ORDER #HW1 AC1 **$28.95**
